

Eastern Heating & Cooling Council

Training for the HVAC Professional

Universal R-410A Training & Safety Course

This seminar will provide field service personnel with the necessary training and practical knowledge for the safe performance of service on systems containing R-410A and R-407C. In addition, technicians will learn about the R-22 phase-out, appropriate refrigerant and oil applications, service techniques and safe handling of R-410A. **Technicians who attend will earn 4 NATE CEHs toward re-certification in Air Conditioning and/or Heat Pump specialties and/or 2 BPI continuing education credits.**

Course Topics Include:

- Condensing Pressure
- Evaporating Pressure
- Vapor Pressure
- Superheat
- Subcooling
- Refrigerant Chemistry
- System Charging
- Refrigerant Oils
- Personal Safety
- Electrical Safety
- Safe Refrigerant Handling
- Environmental Considerations

Registration Fee Covers:

- Certificate of Attendance
- Training Manual
- Lunch
